Tracking

Delivery and read receipts help provide confirmation that messages were successfully received. Not all email servers and applications support sending receipts.

For all messages sent, request:

Delivery receipt confirming the message was delivered to the recipient's email server

Read receipt confirming the recipient viewed the message

For any message received that includes a read receipt request:

Always send a read receipt

Never send a read receipt

Ask each time whether to send a read receipt

Automatically process meeting requests and responses to meeting requests and polls

Automatically update original sent item with receipt information

Update tracking information, and then delete responses that don't contain comments

After updating tracking information, move
